"The authors carefully considered how to thoughtfully and meaningfully integrate data analytics into the financial accounting course, and are pleased to provide the following data analytics resources. Data Analytics and Decision-Making The text provides numerous discussions on how decision-makers are increasingly relying on data analytics to make decisions using accounting information. Accounting software systems collect vast amounts of data about a company's economic events as well as its suppliers and customers. Business decision-makers take advantage of this wealth of data by using data analytics to gain insights and therefore make more informed business decisions. Data analytics involves analyzing data, often employing both software and statistics, to draw inferences. As both data access and analytical software improve, the use of data analytics to support decisions is becoming increasingly common at virtually all types of companies"--

ACCOUNTING BEST PRACTICES Seventh Edition Today's accounting staffs are called on to work magic: process transactions, write reports, improve efficiency, create new processes—all at the lowest possible cost, using an ever-shrinking proportion of total corporate expenses. Sound impossible? Not if your staff is using the best practices for accounting. Fully updated in a new edition, Accounting Best Practices, Seventh Edition draws from renowned accounting leader Steven Bragg's extensive experience in successfully developing, operating, and consulting various accounting departments. This invaluable resource has the at-your-fingertips information you need, whether you've been searching for ways to cut costs in your accounting department, or just want to offer more services without the added expense. The best practices featured in this excellent step-by-step manual constitute need-to-know information concerning the most advanced techniques and strategies for increasing productivity, reducing costs, and monitoring existing accounting systems. This new edition boasts over 400 best practices, with fifty new to this edition in the areas of taxation, finance, collections, general ledger, accounts payable, and billing. Now featuring a corresponding seven-minute podcast for each chapter found on the book's companion website, Accounting Best Practices is the perfect, do-it-yourself book for the manager who wants to significantly boost their accounting department.

An update to Financial and Managerial Accounting for School Administrators: Superintendents, School Business Administrators and Principals, this book and CD includes current best practices, GASB pronouncements, and web-based applications. It also provides school administrators with important accounting background, technique, and applications in the school environment and demonstrates the overall binding effect accounting has on all of the tasks and functions performed by school administrators. Knowledge about accounting and accounting skills pervades all aspects of the day-to-day operation of a school and school district. The proper day-to-day operation of the schools and quality planning and decision-making cannot realistically take place unless administrators and board members have an understanding of school fund accounting. The present and the future will see the need for both financial and managerial accounting. One type will not overshadow the other. Both will continue to evolve and develop to satisfy the needs of society and the education community. Financial and managerial accounting together can be thought of as the process that gathers, produces, organizes, and presents information that can be consumed by a wide variety of users for the purpose of keeping an organization operating, growing, improving, and changing. This book and CD will be useful to superintendents, school business managers, and principals.

Financial Accounting Sixth Canadian Edition and its supplement package is the only product that can deliver a unique balanced procedural and conceptual (user-oriented) approach, with a proven pedagogy and a breadth of problem material in an engaging manner giving students the opportunity to ?get accounting? by ?doing accounting?. The authors? worked tirelessly to create materials that engage students in the learning process, help them learn to learn, and at the same time bring to their attention the most current coverage of both sets of rapidly changing accounting standards, IFRS and ASPE.

With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision-making approach to the material. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.
