

Jaiib Exam Accounts Paper

Money-laundering has acquired a global character that not only threatens security, but also compromises the stability, transparency and efficiency of financial systems. Money-laundering techniques are becoming more sophisticated and complex with each pass

In CBT Made Simple, two psychologists and experts in cognitive behavioral therapy (CBT) offer the ultimate “how-to” manual based on the principles of effective adult learning. Structured around these evidence-based principles, this user-friendly guide will help you learn CBT and deliver it to your clients in the most optimal way. CBT is a popular and proven-effective treatment for several mental health disorders, including anxiety, depression, obsessive-compulsive disorder (OCD), post-traumatic stress disorder (PTSD) and anger problems. However, there are no evidence-based learning techniques to teach it—until now. This simple, pragmatic guide offers everything you need to know about CBT: what it is, how it works, and how to implement it in session. CBT Made Simple provides a user-friendly, practical approach to learning CBT using up-to-the-minute teaching methods and learning tools—in particular, the “effective adult learning model,” which promotes interactive learning, experiential learning, and self-reflection. Each chapter presents key elements of CBT in clear, accessible language, and includes client dialogues—including explanations of the therapist’s thinking process in relation to various interventions—and clinical examples. Practical exercises are incorporated throughout, enabling you to practice and consolidate your learning. In addition, each chapter mimics the structure of an actual CBT session. If you are a clinician or student interested in learning more about CBT, this book—a new addition to the New Harbinger Made Simple series that includes ACT Made Simple and DBT Made Simple—has everything you need to hit the ground running. Why not make it a part of your professional library?

Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. This book is for all those people who think accountancy is rocket science. Believe me, friends, it isn't. Accountancy is something which we use in our day-to-day life. When understanding the accounting convention, principles or rules, one can relate them to our daily life. In fact, commerce is nothing but dealing among people. As it involves our society, it’s really very simple to understand. Come let’s make accountancy a child play.

JAIIB and DB&F (Diploma in Banking & Finance) Examination is conducted by Indian Institute of Banking and Finance (IIBF) in May and November every year. ADDA 247 has been consistently working to make the word ?SUCCESS? a true companion to all the banking aspirants. As the year 2019 has just marked its presence, we are delighted to announce that ADDA 247 is launching ‘?A Complete Book of Puzzles & Seating Arrangement? Second Edition. Puzzles are an important part of Reasoning Section, the one that you cannot escape from. It is the topic that dominates the Reasoning Section of all sorts of banking exams. So many other miscellaneous topics too are now being asked in the form of puzzles. The number of questions being asked on puzzles ranges from 60 to 65 percent of the total number of questions in the Reasoning Section. So it is now very obvious that the strategy of ignoring questions based on puzzles, thereby solving other questions won’t be working anymore as neglecting questions on puzzles can risk the likelihood of you clearing the sectional cut off or scoring satisfactory marks in the Reasoning Section. It is already known to all the aspirants that Puzzles & Seating Arrangement form the most important part of the Reasoning Section as they carry the highest weightage among the other topics. So, considering all the significance that these portions carry, this book would provide all the necessary help and guidance in clearing the given sections smoothly.

Winner of the 2012 Grand Canyon Reader Award for a Non-fiction book Global events and new technology change how we live from moment to moment. So, what will our world be like in twenty years? Come take a look as futurists Amy Zuckerman and James Daly examine what a kid’s daily life might be like in the year 2030. Inspired and informed by trends and scientific and technological research, 2030 is not only a peek at some cool future gadgets (talking dog collars, cars that drive themselves), but also a thoughtful examination of how our lives might be impacted as we adjust to environmental change.
